SUBJECT INDEX TO VOLUME 58

(abs) = abstract (E) = editorial

Abdominal arteriography, technique and diagnostic application, 591
venography, 599
Abscess, brain, associated with congenital heart disease (abs), 375
Adenocarcinoma, cylindroma type, of parotid gland (abs), 264
of endometrium, common peculiarities of patients with, 203
uterine, recognition and management of woman predisposed to (abs), 693
Adrenal cortex, carcinoma of, with adrenogenital syndrome in children (abs), 695
Adrenalitis, acute hemorrhagic (abs), 695
Air filling, significance of indentures in outlines of atria of lateral ventricles after, 46
Alabama Radiological Society, 123
Allergic pulmonary disease, bronchoscopy as aid in diagnosis and treatment of (abs), 126
American College of Physicians, announcement of 1948 meeting, 365
research fellowships, 366
American College of Radiology, 367
American Medical Association, Section on Radiology, announcement of 1948 meeting, 366
American Radium Society, 366
American Roentgen Ray Society, annual meeting (E), 116; (E), 494
food packages for foreign members of, 678
instruction courses at Forty-eighth Annual Meeting, 241
officers elected for 1947–1948, 509
preliminary program of Forty-eighth Annual Meeting, 122
scientific exhibit, 502
technical exhibit, 509
Anemia, pernicious, possible relation of leiomyosarcoma of stomach to (abs), 258
Anesthesia, ether, in obstetrics, bronchopneumonia following (abs), 127
sodium pentothal, roentgen examination of stomach with patient under (abs), 386
Aneurysm, and mediastinal tumor, differentiation of, by angiocardiography, 584
carotido-cavernous, arteriography of (abs), 826
intracranial, importance of cerebral angiography in, 543
Angina pectoris, ruptured intervertebral disc simulating (abs), 821
Angiocardiography, differentiation of mediastinal tumor and aneurysm by, 584
Angiography, cerebral, 543
intracranial, diagnosis of vascular lesions (abs), 374
Angioma, vertebral (abs), 526
Angiomatous malformations, diagnosis of, by cerebral angiography, 543
Anomalies of ribs (abs), 524
Anus, congenital malformations of (abs), 690
Aorta, abdominal, visualization of, with radiopaque media, 591
Appendectomy, lumbar (abs), 261
Appendicitis, acute, roentgen examination of (abs), 689
lumbar, and lumbar appendectomy (abs), 261
Appendix, calcified fecal concretions of, in childhood, 455
lymphosarcoma primary in (abs), 689
Aqueduct of Sylvius, diagnosis and treatment of strictures of (abs), 680
Arachnoiditis, cystic cerebellar (abs), 376
Arteriography, abdominal, technique and diagnostic application, 591
important points in (abs), 826
of carotido-cavernous aneurysm (abs), 826
Artery, aberrant right subclavian, syndrome of, with patient ductus arteriosus, 708
left coronary, anomalous origin of (abs), 825
pulmonary, thrombosis of, in children (abs), 382
Arthritis, chronic rheumatic, roentgenological early symptoms and healing phenomena in (abs), 825
Asthma, bronchoscopy in treatment of (abs), 126
Astragalus, osteochondritis dissecans of (abs), 528
Athletes, march fracture of fibula in (abs), 824
Atomic Radiations Unit, formation of, 366
Atria of lateral ventricles, significance of indentures in outlines of, after air filling, 46
Atrial septal defect, and patent ductus arteriosus, differentiation of, 697
Avulsing injury of brachial plexus, myelographic demonstration of, 102
Azygos septum, variations in position of, 726

Backache (abs), 523
Barium enema, signoidovesical fistula demonstrated by, 451
umbrathor as substitute for, in roentgen study of acute intestinal obstruction, 422
Battery casings, burning of, cause of epidemic of inhalation lead poisoning in children, 129
Beryllium poisoning (abs), 381
Besnier-Boeck-Schaumann's disease (abs), 380
Biochemical changes in fracture hematoma (abs), 533
Biological measurement of depth dose of roentgen rays with lettuce seedlings, 222
Bladder, carcinoma, comparative value of deep and supervoltage roentgen therapy of, 347
treatment of cancer of, by radium needles, 486

BODY build, heavy lateral, a fairly frequent finding in patients with carcinoma of endometrium, 203
BONE, carpal, injuries (abs), 527
cranial manifestations of fibrous dysplasia of, 51
cysts of vault, relation of cranial manifestations of fibrous dysplasia of bone to, 51
deposition of radioactive metals in, as potential health hazard, 10
fibrous dysplasia of, 478
fibrous dysplasia of, localized in skull (abs), 529
graft, sacrolumbar, complications of (abs), 523
greater multangular, and scaphoid, anomalous fusion of (abs), 823
marrow, in vitro, studies on, 464
roentgen appearance of primary reticulum cell sarcoma of, 291
sarcoid of (abs), 533
sarcoma, roentgen interpretation of growth patterns in (abs), 389
BONES, eosinophilic granuloma of, associated with involvement of lungs and diaphragm, 733
of lower extremities, orthoroentgenography as method of measuring (abs), 534
parietal, thinness of, 724
pelvic, osteochondromata of (abs), 534
radionecrosis of (abs), 526
BOOK REVIEWS
Radium Lost and Found. By Robert B. Taft, 368
Queensland Radium Institute, Queensland, Australia. Second Annual Report of the Honourable the Minister for Health and Home Affairs, 368
Medical Research: A Symposium. Edited by Austin Smith, 369
A Memoir to the Academy of Sciences at Paris on a New Use of Sulphuric Ether. By W. T. G. Morton, 369
Journal of the History of Medicine and Allied Sciences, Vol. I, No. 4, 1946. Anesthesia Centennial Number, 370
BRACHIAL plexus, myelographic demonstration of avulsing injury of, 102
BRAIN abscess associated with congenital heart disease (abs), 375
hematomas associated with penetrating wounds of (abs), 375
BRONCHIECTASIS following primary tuberculosis (abs), 681
BRONCHOGENIC carcinoma, planigraphy in diagnosis of, 267
BRONCHOGRAPHY with iodized oil, reaction following (abs), 384
BRONCHOPNEUMONIA following ether anesthesia in obstetrics (abs), 127
Bronchoscopy as aid in diagnosis and treatment of allergic pulmonary disease (abs), 126

CALCAREOUS peritendinitis, two cases with localization to fingers (abs), 825
CALCIFICATION, pulmonary, and sensitivity to histoplasmin, tuberculin and haplosporangin (abs), 682
tuberculous pulmonary, variation with age in frequency of (abs), 380
CALCIFICATIONS in interventricular septum in cases of heart block, roentgen demonstration of, 411
in spleen, occurrence in histoplasmin and tuberculin reactors (abs), 381
intra-abdominal, manual manipulation as diagnostic aid in roentgen differentiation of, 514
CALCIUM urolithiasis, "early" (abs), 519
CALCULI, microscopic, in kidney, origin, frequency and significance of (abs), 263
renal, manual manipulation as diagnostic aid in roentgen differentiation of, 514
CANCER of bladder, treatment of, by radium needles, 486
of cervix uteri (abs), 695
of cervix uteri, involvement of rectosigmoid by, 439
of duodenum, roentgen findings in, 425
of hypopharynx (abs), 680
of larynx, treatment of recurrences and evaluation of criteria for selection of treatment of, 331
of lower respiratory tract, evaluation of planigraphy in diagnosis of, 173
of ovary, invasion of rectosigmoid by, 439
of rectum, contact radiotherapy in (abs), 537
of stomach (E), 360
ovarian, review of 100 cases of (abs), 540
CARCINOID, so-called, of small intestine, large retroperitoneal metastasis from (abs), 260
CARCINOMA, basal cell, radioactive phosphorus as external therapeutic agent in, 4
bronchogenic, planigraphy in diagnosis of, 267
cervical, effect of radiation on vaginal cells in (abs), 542
corpus, study of 322 cases of (abs), 541
metastatic, of hypophysis cerebri, 168
of adrenal cortex with adrenogenital syndrome in children (abs), 695
of bladder, comparative value of deep and supervoltage roentgen therapy of, 347
of cervix uteri, analysis of technical factors and results of treatment in, 783
of cervix uteri, comparative value of deep and supervoltage roentgen therapy of, 347
of cervix uteri, results of radiation treatment of, 651
of corpus uteri, end-results of treatment in 531 cases (abs), 541
of larynx, comparative value of deep and supervoltage roentgen therapy of, 347
of ovary, comparative value of deep and supervoltage roentgen therapy of, 347
of prostate, treatment of skeletal metastases secondary to (abs), 823

of rectosigmoid region, retrograde lymphatic spread of, influence of, on surgical procedures (abs), 261
of rectum, comparative value of deep and supervoltage roentgen therapy of, 347
of rectum, restoration of continuity versus cure in (abs), 262
of thyroid, comparative value of deep and supervoltage roentgen therapy of, 347
of thyroid, retention of radioactive iodine in, 17
of thyroid, treatment of, with radioactive iodine, 757
of tongue, comparative value of deep and supervoltage roentgen therapy of, 347
of uterus, comparative value of deep and supervoltage roentgen therapy of, 347
of vulva (abs), 696
Carcinomata, squamous cell, development of, in sinus tracts of chronic osteomyelitis (abs), 532
Carpal bone injuries (abs), 527
Carpus, roentgen evaluation of lesions of, 148
Cartilages, semilunar, of knee, improved technique for roentgen demonstration of, 255
Celiac syndrome (abs), 680
Cerebellar arachnoiditis, cystic (abs), 376
Cerebral angiography, 543
trauma, encephalographic findings in (abs), 376
ventricles, lateral, coarctation of walls of lateral angles of (abs), 377
ventricular dilatation, reversibility of (abs), 521
Cervical rib, fracture of first cervical vertebra complicated by (abs), 524
Cervix uteri, cancer of (abs), 695
carcinoma, analysis of technical factors and results of treatment in, 783
carcinoma, comparative value of deep and supervoltage roentgen therapy of, 347
carcinoma, results of radiation treatment of, 651
effect of radiation on vaginal cells in carcinoma of (abs), 542
Chemical agents and radioactive agents, comparative therapeutic effects of, in neoplastic diseases of hemopoietic system, 774
Chemotherapy in infections of respiratory tract associated with cystic fibrosis of pancreas (abs), 680
Chest roentgenograms, pre-enlistment, pathological manifestations and anatomical variations in (abs), 377
routine roentgenograms, pulmonary infiltrations on, 407
war wounds of, roentgenological and surgical considerations, 183
Child, survival of head of radius in, after removal and replacement (abs), 530
Childhood, calcified appendiceal fecal concretions in, 455
cystic teratomas and teratoid tumors of central nervous system in (abs), 520
staphylococcic pneumonia in (E), 235
Children, bronchiectasis following tuberculosis in (abs), 681
carcinoma of adrenal cortex with adrenogenital syndrome in (abs), 695
epidemic of inhalation lead poisoning with characteristic skeletal changes in, 129
pneumatocele during course of pneumonia in (abs), 681
roentgen diagnosis and treatment of intussusception in (abs), 687
severe rheumatic heart disease in (abs), 383
thrombosis of pulmonary artery in (abs), 382
uretero-pelvic obstructions in (abs), 693
Cholecystographic error, physiological stasis a cause of, 106
Cleidocranial dysostosis (abs), 529
Coarctation of walls of lateral angles of lateral cerebral ventricles (abs), 377
Coccidioidomycosis, evidence of old healed, found on routine chest roentgenograms, 407
Cocoanut Grove fire, effects of plasma and fluid on pulmonary complications in victims of (abs), 385
Concretions, calcified appendiceal fecal, in childhood, 455
Congenital and acquired spinal extradural cysts (abs), 520
defects in diaphragm, 77
duodenal obstruction (abs), 688
gastro-enteric cysts of mediastinum (abs), 683
heart disease, brain abscess associated with (abs), 375
hernia of diaphragm (abs), 684
hypertrophic pyloric stenosis (abs), 687
malformations of anus and rectum (abs), 690
mediastinal cysts of foregut origin (abs), 385
Contact radiotherapy. See Radiotherapy
Contrast medium, new, for hysterosalpingography, evaluation of (abs), 262
Cor Pulmonale, chronic (abs), 382
Costal processes of sternum, persistent centers of ossification of (abs), 528
Cranial manifestations of fibrous dysplasia of bone, 51
Cuneiform, internal, osteochrondritis of, bilateral, 329
Cystic cerebellar arachnoiditis (abs), 376
fibrosis of pancreas, chemotherapy in infections of respiratory tract associated with (abs), 680
teratomas of central nervous system in infancy and childhood (abs), 520
Cysts, bone, of vault, relation of cranial manifestations of fibrous dysplasia of bone to, 51
calcified, of liver (abs), 387
congenital gastro-enteric, of mediastinum (abs), 683
congenital mediastinal, of foregut origin (abs), 385

of urachus (abs), 690
spinal extradural, congenital and acquired (abs), 520

DEFORMITIES following surgical epiphyseal arrest (abs), 529
DIABETES, a fairly frequent finding in patients with carcinoma of endometrium, 203
DIAPHRAGM, congenital defects in, 77
congenital hernia of (abs), 684
eocinophilic granuloma of bones associated with involvement of, 733
DIAPHRAGMATIC hernia, roentgenologic characteristics of, 77
DILATATION, cerebral ventricular, reversibility of (abs), 521
DIODRAST as contrast medium in venography, 603
for visualization of inferior vena cava, 617
DISPLACEMENT, posterior of lumbar vertebrae, 307
DIVERTICULUM, inflammatory, of pericardium (abs), 684
of bulb of duodenum (abs), 688
DOSAGE, tissue, in radioisotope therapy, 754
DOSE, depth, of roentgen rays with lettuce seedlings, biological measurement of, 222
DUCTUS ARTERIOSUS, patent, and atrial septal defect, differentiation of, 697
patent, syndrome of aberrant right subclavian artery with, 708
DUODENAL and paraduodenal malignant lesions, primary, roentgen findings in, 425
DUODENUM, congenital obstruction of (abs), 688
diverticulum of bulb of (abs), 688
DUSTS, benign pneumoconiosis due to, 277
DWARFISM, roentgen pictures of various forms of (abs), 529
DYSOSTOSIS, mutational (abs), 529
DYSPHAGIA, sideropenic (abs), 680
DYSPLASIA, fibrous, of bone, 478
fibrous, of bone, cranial manifestations of, 51
fibrous, of bone localized in skull (abs), 529
DYSTROPHY, reflex sympathetic (abs), 266

Echinococcus alveolaris of liver, radiotherapy of (abs), 539
ECHINOCOCCUS disease (abs), 387
EDEMA, transitory focal pulmonary, and eosinophilia, 391
uremic, of lungs, 620
EDITORIALS
Annual meeting American Roentgen Ray Society, 116
Charles Darwin Enfield, 1887–1946, 117
Staphylococcic pneumonia in infancy and childhood, 235
Cancer of the stomach, 360
The annual meeting of the American Roentgen Ray Society, 494
Osteitis pubis, 497
Ulysses Silver Kann, 1873–1947, 498
Various conditions influencing roentgenographic interpretation of joint diseases, 664
Clarence Edward Skinner, 1868–1947, 667
Edward Everett Rowell, 1878–1947, 669
John Leonard Kantor, 1890–1947, 671
National Science Foundation, 806
James Madison Martin, 1867–1947, 809
Forrest C. Sweringen, 1885–1946, 811
EDWARDS, J. BENNETT, portrait opposite page 391.
EFFECT of radiation on vaginal cells in cervical carcinoma (abs), 542
of roentgen rays on explanted bone marrow, 464
of roentgen rays on *in vitro* motility of feline intestine, 357
EFFUSION, lessser sac, roentgen findings in (abs), 387
ELBOW joint, fracture of medial epicondyle with displacement into (abs), 530
EMBOLI, "lipiodol" pulmonary, following hysterosalpingography (abs), 384
EMPHYSEMA, pulmonary, and tuberculosis, roentgenological and pathological study, 64
ENCEPHALOGRAPHIC findings in cerebral trauma (abs), 376
ENCHONDROMATOSIS, multiple (abs), 526
ENDOMETRIOSIS of rectosigmoid, 439
ENDOMETRIUM, common peculiarities of patients with adenocarcinoma of, 203
ENFIELD, CHARLES DARWIN, 1887–1946, obituary, 117
portrait, 117
EOSINOPHILIA, and transitory focal pulmonary edema, 391
EPICONDYLE, medial, fracture of, with displacement into elbow joint (abs), 530
EPIDEMIC of inhalation lead poisoning with characteristic skeletal changes in children involved, 129
EPIDURAL space, spinal, lesions of, producing cord compression (abs), 821
EPIPHYSEAL arrest, surgical, deformities following (abs), 529
EPIPHYSIS, upper femoral, slipping of, diagnosis and therapy (abs), 824
EPITHELIOMA, cylindrical, of rectum, reaction of, to contact radiotherapy (abs), 537
EPITHELIOMAS, malpighian, of skin and mucous membrane, reaction of, treated by contact radiotherapy (abs), 535
ESOPHAGEAL hiatal hernia, 77
ESOPHAGOTRACHEOBRONCHIAL fistula, acquired (abs), 125
ESOPHAGUS, congenitally short, with thoracic stomach, 77
herniation of gastric mucosa into, 194
ETHER anesthesia in obstetrics, bronchopneumonia following (abs), 127
EXTREMITIES, lower, orthoroentgenography as method of measuring bones of (abs), 534
EYE signs in pineal tumors (abs), 376

Face, late development of ulcerous radiodermatitis of, with malignant degeneration (abs), 536
Femoral triangle, medial, of translucency, simulating osteochondritis dissecans, 166
Femur, gunshot fractures of shaft of (abs), 388
metastasis to, from leiomyosarcoma of uterus (abs), 694
Fetus, human, intrauterine respiration of (abs), 692
Fever, periosteal reaction, and irritability in young infants (abs), 527
Fibroids, uterine, radiation therapy in (abs), 538
Fibromyoma, uterine, roentgen therapy in, without ovarian sterilization, 798
Fibula, march fracture of, in athletes (abs), 824
Fingers, two cases of calcareous peritendinitis with localization in (abs), 825
Fistula, acquired esophagotracheobronchial (abs), 125
sigmoidovesical, 451
Fistulas, spontaneous gastrointestinal biliary (abs), 259
Food packages for foreign members of American Roentgen Ray Society, 678
Foregut origin, congenital mediastinal cysts of (abs), 385
Fracture hematoma, biochemical changes in (abs), 533
march, of fibula in athletes (abs), 824
of first cervical vertebra, complicated by cervical rib (abs), 524
of medial epicondyle with displacement into elbow joint (abs), 530
Fractures, gunshot, of femoral shaft (abs), 388
severe, of os calcis, new method of treatment (abs), 387
Functional radiotherapy (abs), 538
Fusion, anomalous, of scaphoid and greater multangular (abs), 823

Gallbladder, physiological stasis of, a cause of cholecystographic error, 106
roentgen appearance of double, simulated by gallbladder with congenitally folded fundus, 112
subcutaneous or extraperitoneal (abs), 691
Gastric mucosa, herniation of, into esophagus, 194
Gastrointestinal biliary fistulas, spontaneous (abs), 259
Gland, subserous calcified, in wall of stomach (abs), 686
Granuloma, eosinophilic, of bones, associated with involvement of lungs and diaphragm, 733
Grid cassette, note concerning advertisement of, 367
Growth patterns, roentgen interpretation of, in bone sarcoma (abs), 389
Gunshot fractures of femoral shaft (abs), 388

Haplosporangin, pulmonary calcification and sensitivity to (abs), 682
Healing, spontaneous, of localized hematogenous spread in pulmonary tuberculosis, 283
Health hazard, potential, deposition of radioactive metals in bone as, 10
Heart and great vessels, angiocardiographic visualization of, as important aid in diagnosis of mediastinal masses, 584
block, roentgen demonstration of calcifications in interventricular septum in cases of, 411
disease, congenital, brain abscess associated with (abs), 375
disease, congenital, with anomalous right subclavian artery, 708
disease, severe rheumatic, in children (abs), 383
failure, left ventricular, development of pulmonary edema in patients with, 620
roentgen problem of volume of (abs), 684
Hemangioma, radioactive phosphorus as external therapeutic agent in, 4
Hematogenous spread, localized, in pulmonary tuberculosis, spontaneous healing of, 283
Hematoma, fracture, biochemical changes in (abs), 533
Hematomas associated with penetrating wounds of brain (abs), 375
gross intracerebral, report of 16 surgically treated cases (abs), 374
Hemopoietic system, comparative therapeutic effects of radioactive and chemical agents in neoplastic diseases of, 774
Hernia, congenital, of diaphragm (abs), 684
diaphragmatic, roentgenologic characteristics of, 77
esophageal hiatal, 77
foramen of Morgagni, 77
pleuroperitoneal, 77
Herniation of gastric mucosa into esophagus, 194
posterior, of intervertebral disc, role of roentgen ray in diagnosis of (abs), 522
Heterotopia, pancreatic (abs), 259
High voltage cables, standardization of, 342
Histoplasmin, pulmonary calcification and sensitivity to (abs), 682
reactors, calcifications in spleen in (abs), 381
Histoplasmosis, fatal, roentgenologic pulmonary manifestations of, 717
Hydrocephalus caused by strictures of aqueduct of Sylvius, diagnosis and treatment of (abs), 680
Hyperostoses, infantile cortical, 629
infantile cortical, etiology of, 633
Hypertension, a fairly frequent finding in patients with carcinoma of endometrium, 203
Hypopharynx, cancer of (abs), 680
Hypophysis cerebri, metastatic carcinoma of, 168
Hysterosalpingography, evaluation of new contrast medium for (abs), 262
"lipiodol" pulmonary emboli following (abs), 384

Ileum, terminal, roentgen diagnosis (abs), 386
Incontinence, urinary, due to bilateral ectopic ureters (abs), 264
Indentures, significance of, in outlines of atria of lateral ventricles after air filling, 46
Industries, different, roentgen picture of silicosis in (abs), 682
Infancy, cystic teratomas and teratoid tumors of central nervous system in (abs), 520
staphylococcic pneumonia in (E), 235
Infants, cortical hyperostoses in, 629
etiology of cortical hyperostoses in, 633
young, periosteal reaction, fever, and irritability in (abs), 527
Infarction, myocardial, roentgen diagnosis (abs), 383
Infections of respiratory tract associated with cystic fibrosis of pancreas (abs), 680
Injuries, carpal bone (abs), 527
Inter-American Congress of Radiology, Third, 677
Interventricular septum, roentgen demonstration of calcifications in, in cases of heart block, 411
Intervertebral disc, role of roentgen ray in diagnosis of posterior herniation of (abs), 522
ruptured, simulating angina pectoris (abs), 821
Intestine, acute obstruction of, umbrathor as substitute for barium in roentgen study of, 422
feline, effect of roentgen rays on in vitro motility of, 357
small, large retroperitoneal metastasis from so-called carcinoid of (abs), 260
Intussusception in children, roentgen diagnosis and treatment (abs), 687
Iodine, radioactive, retention of, in thyroid carcinomas, 17
Iodized oil, reaction following bronchography with (abs), 384
Irradiation of pyloric region in polyglobulic syndromes (abs), 539
sickness, nicotinic acid in treatment of (abs), 535
Irritability, periosteal reaction and fever in young infants (abs), 527
Isotopes, radioactive, use of radiation of, in radiation therapy, 1

Joint diseases, conditions influencing roentgenographic interpretation of (E), 664

Kann, Ulysses Silver, 1873–1947, obituary, 498
portrait, 498
Kantor, John Leonard, 1890–1947, obituary, 671
portrait, 671
Kidney, left, liposarcoma of capsule of, complicating nephrolithiasis and pyonephrosis, 641
origin, frequency and significance of microscopic calculi in (abs), 263
Kidneys, calculi of, manual manipulation as diagnostic aid in roentgen differentiation of, 514
extensive calcification of, in chronic nephritis, 33
Kienböck's disease, 148
Kilovoltage, effect of, on efficiency of roentgen-ray production, 211
effect of, on quality of roentgenographic and roentgenoscopic images, 211
effect of, on roentgen dosage received by patient during roentgenoscopy, 211
Knee, improved technique for roentgen demonstration of semilunar cartilages of, 255
Kymography, roentgen, in diagnosis of myocardial infarction (abs), 383

Labor, roentgenographic visualization of placenta in third stage of, 730
Larynx, cancer, treatment of recurrences and evaluation of criteria for selection of treatment of, 331
carcinoma, comparative value of deep and supervoltage roentgen therapy of, 347
tuberculosis of (abs), 128
Lead poisoning, inhalation, epidemic of, with characteristic skeletal changes in children involved, 129
Legs, roentgenographic analysis of 100 venograms of, 603
Leiomyosarcoma of stomach (abs), 685
of stomach, possible relation of, to pernicious anemia (abs), 258
of stomach, roentgenologic and gastroscopic diagnosis (abs), 258
of uterus, with metastasis to femur (abs), 694
Lenard, Philipp, 1862–1947, announcement of death of, 673
Leontiasis ossea, relation of cranial manifestations of fibrous dysplasia of bone to, 51
Lesions, extrinsic, affecting rectosigmoid, 439
of carpus, roentgen evaluation of, 148
Lettuce seedlings, biological measurement of depth dose of roentgen rays with, 222
Leukemia, lymphatic, treatment of, with radioactive phosphorus, 757
myelogenous, treatment of, with radioactive phosphorus, 757
"Lipiodol" pulmonary emboli following hysterosalpingography (abs), 384
Liposarcoma of capsule of left kidney complicating nephrolithiasis and pyonephrosis, 641
Liver, calcified cysts of (abs), 387
radiotherapy of *Echinococcus alveolaris* of (abs), 539
Löffler's syndrome, 75, 391
Lumbar appendicitis and lumbar appendectomy (abs), 261
Lunate, fractures and dislocations of, 148
Lung, infiltration of, associated with eosinophilia and asymptomatic chronic amebiasis, 76
bronchoscopy as aid in diagnosis and treatment of allergic disease of (abs), 126
calcification in, and sensitivity to histoplasmin,

tuberculin and haplosporangin (abs), 682
effects of plasma and fluid on complications in, in burned patients (abs), 385
eosinophilic granuloma of bones associated with involvement of, 733
infiltrations of, on routine chest roentgenograms, 407
roentgenologic manifestations in, of fatal histoplasmosis, 717
transitory focal edema of, and eosinophilia, 391
tuberculous, morphology of emphysema in, 64
uremic edema of, 620
Lymphatic spread, retrograde, of carcinoma of rectosigmoid region, influence of, on surgical procedures (abs), 261
Lymphosarcoma primary in appendix (abs), 689
"Lysholm grid cassette," note concerning advertisement of, 367

Malformations, congenital, of anus and rectum (abs), 690
Malignant degeneration, late development of ulcerous radiodermatitis of face with (abs), 536
lesions, primary duodenal and paraduodenal, roentgen findings in, 425
Martin, James Madison, 1867–1947, obituary, 809
portrait, 809
Measurement, biological, of depth dose of roentgen rays with lettuce seedlings, 222
of bones of lower extremities, orthoroentgenography as method of (abs), 534
Mediastinal cysts, congenital, of foregut origin (abs), 385
Mediastinum, congenital gastro-enteric cysts of (abs), 683
differentiation of tumor of, and aneurysm by angiocardiography, 584
Medical physics, recent developments in, having application to radiation therapy, 1
research, radioactive sodium as tool in, 741
Mesenteric thrombosis, 637
Metal fumes, benign pneumoconiosis due to, 277
Metals, radioactive, deposition of, in bone as potential health hazard, 10
Metastases, skeletal, secondary to carcinoma of prostate, treatment of (abs), 823
Metastasis, large retroperitoneal, from so-called carcinoid of small intestine (abs), 260
to femur from leiomyosarcoma of uterus (abs), 694
Metastatic carcinoma of hypophysis cerebri, 168
Mexican journal, new, 677
Missiles, high velocity, damage to peripheral nerves by, without a direct hit (abs), 522
Moniliasis, pulmonary, recovery from, following serum therapy (abs), 379
Morquio's disease (abs), 822
Mucous membrane, reaction of malpighian epitheliomas of, treated by contact radiotherapy (abs), 535
Myelography, demonstration by, of avulsing injury of brachial plexus, 102
pantopaque, technique of (abs), 521
Myocardial infarction, roentgen diagnosis (abs), 383

Nasopharynx, odontoma of (abs), 124
National science foundation (E), 806
Neoplastic diseases of hemopoietic system, comparative therapeutic effects of radioactive and chemical agents in, 774
Nephritis, chronic, with extensive calcification of kidneys, 33
Nephrocalcinosis, 33
Nephrolithiasis, liposarcoma of capsule of left kidney complicating, 641
Nerves, peripheral, damage to, by high velocity missiles without a direct hit (abs), 522
Nervous system, central, cystic teratomas of, in infancy and childhood (abs), 520
sympathetic, embryonal tumor of (abs), 822
sympathetic, intrathoracic tumors of (abs), 265
Nicotinic acid in treatment of irradiation sickness (abs), 535

Obesity, a fairly frequent finding in patient with carcinoma of endometrium, 203
Obstetrics, bronchopneumonia following ether anesthesia in (abs), 127
Obstruction, acute intestinal, umbrathor as substitute for barium in roentgen study of, 422
Obstructions, uretero-pelvic, in children (abs), 693
Odontoma of nasopharynx (abs), 124
Ohio State Radiological Society, 367
Orthoroentgenography as method of measuring bones of lower extremities (abs), 534
Os calcis, new method of treatment for severe fractures of (abs), 387
Ossification, persistent centers of, of costal processes of sternum (abs), 528
Osteitis fibrosa, localized (abs), 525
pubis (E), 497
Osteochondritis dissecans, medial femoral triangle of translucency simulating, 166
dissecans of astragulus (abs), 528
of internal cuneiform, bilateral, 329
Osteochondrodystrophia deformans (abs), 822
Osteochondromata of pelvic bones (abs), 534
Osteogenic sarcoma (abs), 389
Osteomyelitis, chronic, development of squamous cell carcinomata in sinus tracts of (abs), 532
early acute, soft tissue changes in, 142
pyogenic, of spine (abs), 530
Osteomyelosclerosis (abs), 522
Osteonephropathy (abs), 823
Ovary, carcinoma, comparative value of deep and supervoltage roentgen therapy of, 347
radiotherapy of tumors of (abs), 540

review of 100 cases of cancer of (abs), 540
roentgen therapy in uterine fibromyoma without sterilization of, 798

Pancreas, chemotherapy in infections of respiratory tract associated with cystic fibrosis of (abs), 680
Pancreatic heterotopia (abs), 259
Pantopaque myelography, technique of (abs), 521
Paramyloidosis (abs), 386
Parietal bones, thinness of, 724
Parotid gland, adenocarcinoma, cylindroma type, of (abs), 264
Peculiarities, common, of patients with adenocarcinoma of endometrium, 203
Pelvis, osteochondromata of bones of (abs), 534
treatment of tuberculosis of, by radiation therapy (abs), 696
Penicillin aerosol treatment of infections of respiratory tract associated with cystic fibrosis of pancreas (abs), 680
Pennsylvania Radiological Society, 677
Peptic ulcer, dissection, pneumothorax resulting from (abs), 686
Pericardium, inflammatory diverticulum of (abs), 684
Periosteal reaction, fever and irritability in young infants (abs), 527
Peritoneal cavity, lesser, roentgen findings in effusion of (abs), 387
Phosphorus, radioactive, as external therapeutic agent in basal cell carcinoma, warts and hemangioma, 4
Photoroentgenograms, five thousand, at Lausanne, 1943–1945 (abs), 377
Photoroentgenographic examinations in Canton of Neuchâtel (abs), 378
Photoroentgenography (abs), 378
Physics, medical, recent developments in, having application to radiation therapy, 1
Physiological stasis, cause of cholecystographic error, 106
Pineal tumors, eye signs in (abs), 376
Pittsburgh Roentgen Society, 678
Placenta previa, recurrent, and significance of placentography as diagnostic criterion (abs), 263
roentgenographic visualization of, in third stage of labor, 730
Placentography, significance of, as diagnostic criterion in recurrent placenta previa (abs), 263
Planigraphy. See also Tomography
evaluation of, in diagnosis of cancer of lower respiratory tract, 173
in diagnosis of bronchogenic carcinoma, 267
Plasma and fluid, effects of, on pulmonary complications in burned patients (abs), 385
Pneumatocele during course of pneumonia in children (abs), 681
Pneumoconiosis, benign, due to metal fumes and dusts, 277
Pneumonia in children, pneumatocele during course of (abs), 681
staphylococcic, in infancy and childhood (E), 235
Pneumothorax resulting from dissection gastric ulcer (abs), 686
Poisoning, beryllium (abs), 381
Polycythemia vera, treatment of, with radioactive phosphorus, 757
Polyglobulia, irradiation of pyloric region in (abs), 539
Prostate gland, carcinoma, treatment of skeletal metastases secondary to (abs), 823
Psoas muscle, syndrome of trauma to (abs), 691
Pylorus, congenital hypertrophic stenosis of (abs), 687
irradiation of region of, in polyglobulic syndromes (abs), 539
roentgen symptomatology of hypertrophic stenosis of, in adult (abs), 686
Pyonephrosis, liposarcoma of capsule of left kidney complicating, 641

Radiation, effect of, on vaginal cells in cervical carcinoma (abs), 542
therapy, artificially prepared radioactive isotopes as means of administering, 757
therapy in uterine fibroids (abs), 538
therapy, recent developments in medical physics having application to, 1
treatment of carcinoma of cervix uteri, results of, 651
Radioactive agents and chemical agents, comparative effects of, in neoplastic diseases of hemopoietic system, 774
iodine, retention of, in thyroid carcinomas, 17
iodine, treatment of various diseases with, 757
isotopes, artificially prepared, as means of administering radiation therapy, 757
metals, deposition of, in bone as potential health hazard, 10
phosphorus as external therapeutic agent in basal cell carcinoma, warts and hemangioma, 4
phosphorus, treatment of various diseases with, 757
sodium as tool in medical research, 741
Radioautographic studies on retention of radioactive iodine in thyroid carcinomas, 17
Radiodermatitis, ulcerous, late development of, of face, with malignant degeneration (abs), 536
Radioisotope therapy, tissue dosage in, 754
Radioisotopes, availability of, with increased specific activities, 816
Radiological Society of New Jersey, 123
Radionecrosis of bones (abs), 526
Radiotherapy, contact (abs), 537

contact, in cancer of rectum (abs), 537
contact, reaction of cylindrical epithelioma of rectum to (abs), 537
contact, reaction of malpighian epitheliomas of skin and mucous membrane treated by (abs), 535
functional (abs), 538
of *Echinococcus alveolaris* of liver (abs), 539
of tumors of ovary (abs), 540
Radium applicator, improved, description of, for treatment of carcinoma of cervix uteri, 783
needles, treatment of cancer of bladder by, 486
Radius, reticulosarcoma of (abs), 528
survival of head of, in child after removal and replacement (abs), 530
Rectosigmoid, extrinsic lesions affecting, 439
region, retrograde lymphatic spread of carcinoma of (abs), 261
Rectum, carcinoma, comparative value of deep and supervoltage roentgen therapy of, 347
carcinoma, restoration of continuity versus cure in (abs), 262
congenital malformations of (abs), 690
contact radiotherapy in cancer of (abs), 537
reaction of cylindrical epithelioma of, to contact radiotherapy (abs), 537
Research fellowships, United States Public Health Service, information concerning, 817
Respiration, intrauterine, of human fetus (abs), 692
Respiratory tract, infections of, associated with cystic fibrosis of pancreas, chemotherapy in (abs), 680
lower, evaluation of planigraphy in diagnosis of cancer, of 173
Reticulosarcoma of radius (abs), 528
Reticulum cell sarcoma, primary, of bone, roentgen appearance, 291
Retroperitoneal metastasis, large, from so-called carcinoid of small intestine (abs), 260
Revista Mexicana de Radiología y Fisioterapia, announcement of beginning publication, 677
Rheumatic heart disease, severe, in children (abs), 383
Ribs, study of some anomalies of (abs), 524
Rocky Mountain Radiological Society, 367
Roentgen appearance of primary reticulum cell sarcoma of bone, 291
demonstration of semilunar cartilages of knee, improved technique for, 255
evaluation of lesions of carpus, 148
irradiation, therapeutic, serum iron content in patients with malignant tumor before, during and after (abs), 539
ray, role of, in diagnosis of posterior herniation of intervertebral disc (abs), 522
rays, biological measurement of depth dose of, with lettuce seedlings, 222
rays, effect of, on in vitro motility of feline intestine, 357
rays, effect of, on explanted bone marrow, 464
therapy, deep and supervoltage, comparative value of, 347
tube potentials in diagnostic roentgenology, 211
Roentgenograms, pre-enlistment chest, pathological manifestations and anatomical variations in (abs), 377
routine chest, pulmonary infiltrations on, 407
Roentgenographic interpretation of joint diseases, conditions influencing (E), 664
tubes and high voltage cables, standardization of, 342
Roentgenologic characteristics of diaphragmatic hernia, 77
Roentgenology, diagnostic, roentgen tube potentials in, 211
Rowell, Edward Everett, 1878–1947, obituary, 669
portrait, 669

Sacrolumbar bone graft, complications of (abs), 523
Sarcoid of bone (abs), 533
Sarcoidosis (abs), 380
Sarcoma, bone, roentgen interpretation of growth patterns in (abs), 389
osteogenic (abs), 389
primary reticulum cell, of bone, roentgen appearance, 291
reticulum cell, of radius (abs), 528
Scaphoid and greater multangular bone, anomalous fusion of (abs), 823
Schüller-Christian's disease (abs), 524
Sciatica, "detachment" of posterior border of vertebra as cause of (abs), 532
Serum iron content in patients with malignant tumor before, during and after therapeutic roentgen irradiation (abs), 539
therapy, recovery from pulmonary moniliasis following (abs), 379
Sigmoidovesical fistula, 451
Silicosis, roentgen picture of, in different industries (abs), 682
Sinus tracts of chronic osteomyelitis, development of squamous cell carcinomata in (abs), 532
Skeletal changes, characteristic, in children involved, epidemic of inhalation lead poisoning with, 129
Skin, reaction of malpighian epitheliomas of, treated by contact radiotherapy (abs), 535
Skinner, Clarence Edward, 1868–1947, obituary, 667
portrait, 667
Skull, fibrous dysplasia of bone localized in (abs), 529
Sodium pentothal anesthesia, roentgen examination of stomach with patient under (abs), 386
Soft tissue changes in early acute osteomyelitis, 142
Spinal canal, dilatation of, in tumors of spinal mar-

row, nerve roots and spinal meninges (abs), 821
epidural space, lesions of, producing cord compression (abs), 821
extradural cysts, congenital and acquired (abs), 520
SPINE, lesion of, responsible for low back pain (abs), 523
pyogenic osteomyelitis of (abs), 530
tomography of (abs), 525
SPLEEN, calcifications in, occurrence in histoplasmin and tuberculin reactors (abs), 381
SPONDYLITIS, infectious (abs), 532
SPOROTRICHOSIS, report of four clinically atypical cases (abs), 525
STANDARDIZATION of roentgenographic tubes and high voltage cables, 342
STAPHYLOCOCCIC pneumonia in infancy and childhood (E), 235
STENOSIS, congenital hypertrophic pyloric (abs), 687
hypertrophic, of pylorus in adult, roentgen symptomatology of (abs), 686
STERNOCLAVICULAR region, roentgen study of, 644
STERNUM, persistent centers of ossification of costal processes of (abs), 528
STOMACH, cancer of (E), 360
leiomyosarcoma of (abs), 258; (abs), 685
pediculated tumor of, showing all roentgen characteristics of benign tumor (abs), 685
roentgen diagnosis of benign tumors of (abs), 690
roentgen examination of, with patient under sodium pentothal anesthesia (abs), 386
subserous calcified gland in wall of (abs), 686
STRICTURES of aqueduct of Sylvius, diagnosis and treatment (abs), 680
SWEARINGEN, FORREST C., 1885–1946, obituary, 811
portrait, 811
SYNDROME of trauma to psoas muscle (abs), 691
SYNDROMES, polyglobulic, irradiation of pyloric region in (abs), 539

TECHNIQUE for cerebral angiography, 543
for roentgen visualization of inferior vena cava, 617
improved, for roentgen demonstration of semilunar cartilages of knee, 255
oblique projection in urography, 510
of abdominal arteriography, 591
of pantopaque myelography (abs), 521
TENNESSEE RADIOLOGICAL SOCIETY, 123
TERATOMAS, cystic, of central nervous system in infancy and childhood (abs), 520
THERAPEUTIC agent, external, radioactive phosphorus as, in basal cell carcinoma, warts and hemangioma, 4
THORACIC STOMACH, congenitally short esophagus with, 77
right-sided, 196
THOROTRAST as contrast medium in cerebral angiography, 543
THROMBOSIS, cerebral, cerebral angiography in, 543
mesenteric, 637
of pulmonary artery in children (abs), 382
THYROID GLAND, carcinoma, comparative value of deep and supervoltage roentgen therapy of, 347
carcinoma, treatment with radioactive iodine, 757
lateral aberrant (abs), 125
retention of radioactive iodine in carcinoma of, 17
TISSUE dosage in radioisotope therapy, 754
soft, changes in early acute osteomyelitis, 142
TOMOGRAPHY. See also Planigraphy
of spinal column (abs), 525
simple motorized attachment for, 371
TONGUE, carcinoma, comparative value of deep and supervoltage roentgen therapy of, 347
TRANSLUCENCY, medial femoral triangle of, simulating osteochondritis dissecans, 166
TRAUMA, cerebral, encephalographic findings in, 376
to psoas muscle, syndrome of (abs), 691
TRIANGLE, medial femoral, of translucency, simulating osteochondritis dissecans, 166
TUBERCULIN, pulmonary calcification and sensitivity to (abs), 682
reactors, calcifications in spleen in (abs), 381
TUBERCULOSIS, bronchial, diagnosis and treatment of (abs), 682
control, establishment and use of fundamental procedures in (abs), 378
laryngeal (abs), 128
pelvic, treatment of, by radiation therapy (abs), 696
primary, bronchiectasis following (abs), 681
primary, roentgen ray and clinical study of (abs), 379
pulmonary emphysema and, roentgenological and pathological study, 64
pulmonary, found on routine chest roentgenograms, 407
pulmonary, spontaneous healing of localized hematogenous spread in, 283
TUBERCULOUS pulmonary calcification, variation with age in frequency of (abs), 380
TUMOR, embryonal, of sympathetic nervous system (abs), 822
malignant, serum iron content in patients with before, during and after therapeutic roentgen irradiation (abs), 539
mediastinal, and aneurysm, differentiation of, by angiocardiography, 584
pediculated, of stomach, showing all roentgen characteristics of benign tumor (abs), 685
TUMORS, benign gastric, roentgen diagnosis (abs), 690
intrathoracic, of sympathetic nervous system (abs), 265

of ovary, radiotherapy of (abs), 540
of spinal marrow, nerve roots and spinal meninges, dilatation of spinal canal in (abs), 821
pineal, eye signs in (abs), 376
teratoid, of central nervous system in infancy and childhood (abs), 520
Wilms' (abs), 536

Umbrathor as substitute for barium in roentgen study of acute intestinal obstruction, 422
Urachus, cysts of (abs), 690
Uremic edema of lungs, 620
Uretero-pelvic obstructions in children (abs), 693
Ureters, bilateral ectopic, urinary incontinence due to (abs), 264
Urinary incontinence due to bilateral ectopic ureters (abs), 264
Urography, intramuscular (abs), 520
oblique projection in, 510
Urolithiasis, "early" calcium (abs), 519
Urology award, 678
Uterus, adenocarcinoma, recognition and management of woman predisposed to (abs), 693
carcinoma, comparative value of deep and supervoltage roentgen therapy of, 347
carcinoma of body of, end-results of treatment in 531 cases (abs), 541
fibromyoma, roentgen therapy in, without ovarian sterilization, 798
leiomyosarcoma of, with metastasis to femur (abs), 694
radiation therapy in fibroids of (abs), 538
study of 322 cases of carcinoma of body of (abs), 541

Vaginal cells, effect of radiation on, in cervical carcinoma (abs), 542
Vascular lesions, diagnosis of, by intracranial angiography (abs), 374
Vena cava, inferior, roentgen visualization of, 617
Venography, abdominal, 599
clinical and roentgenologic evaluation of, based on 1,027 cases, 603
Ventricles, lateral cerebral, coarctation of walls of lateral angles of (abs), 377
lateral, significance of indentures in outlines of atria of, after air filling, 46
Vertebra, angioma of (abs), 526
"detachment" of posterior border of, as cause of sciatica (abs), 532
first cervical, fracture of, complicated by cervical rib (abs), 524
Vertebrae, lumbar, classification and criteria for diagnosis of true retrodisplacement of, 307
lumbar, posterior displacement of, 307
Vulva, carcinoma of (abs), 696

War wounds of chest, roentgenological and surgical considerations, 183
Warts, radioactive phosphorus as external therapeutic agent in, 4
Wilms' tumors (abs), 536
Wounds, penetrating, of brain, hematomas associated with, 375
war, of chest, roentgenological and surgical considerations, 183
